### Safety Data Sheet

Section 1. Identification		
GHS product Identifier Other means of identification	: Polyguard Alumaguard <sup>®</sup> : Not available	
Relevant identified used of the substance or mixtures and uses advised against Polymer modified bitumen tape used to weather-proof exterior insulated ductwork, piping and other insulated tanks, vessels and equipment.		
Supplier's details	Polyguard Products, Inc 4101 South Interstate 45 Ennis, TX 75119 Tel: (800) 541-4994	
Emergency telephone number) with hours of operation)	CHEMTREC, US 1-800-424-9300 International 1-703-527-3887 (24/7)	

### Section 2. Hazards identification

OSHA/HCS status	: While this material is not considered hazardous by the OSHA Hazardous Communications Standard (49CFR1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
Classification of the substance or	: Not classified
mixture	
GHS label elements	
Signal word	: No signal word
Hazard statement	: No known significant effects or critical hazards.
Precautionary statements	
Prevention	: Not applicable
Response	: Not applicable
Storage	: Not applicable
Disposal	: Not applicable
Hazards not otherwise classified	: None known

# Section 3. Composition/information on ingredients

Substance/Mixture	: Mixture
Other means of identification	: Not available
CAS number/other identifiers	
CAS number	: Not applicable
Product code	: Not applicable
Occupational exposure limits, if av	ailable are listed in section 8.

#### Section 4. First aid measures

#### Description of necessary first aid measures.

Eye contact

: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if symptoms occur.

Polyguard Products, Inc.

Tel: 214-515-5000 www.polyguardproducts.com

### Section 4. First aid measures

Inhalation Skin contact Ingestion	<ul> <li>Not likely to occur under normal use. Possible exposure to toxic fumes if burned.</li> <li>Wash with soap and water. Get medical attention if symptoms occur.</li> <li>Not likely to occur under normal use. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.</li> </ul>
Most important symptoms/effects, a	cute and delayed
Potential acute health effects	
Eye contact	: No known significant effects or critical hazards
Inhalation	: No known significant effects or critical hazards
Skin contact	: No known significant effects or critical hazards
Ingestion	: No known significant effects or critical hazards
<b>Over-exposure signs/symptoms</b>	
Eye contact	: No known significant effects or critical hazards
Inhalation	: No known significant effects or critical hazards
Skin contact	: No known significant effects or critical hazards
Ingestion	: No known significant effects or critical hazards
Indication of immediate medical att	ention and special treatment needed, if necessary.
Notes to physician:	: No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment
<b>Protection of first-aiders:</b>	: No action shall be taken involving any personal risk or without suitable training.

# Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known
Specific hazards arising from the	: No specific fire or explosion hazard.
chemical	
Hazardous thermal decomposition	: Decomposition products may include the following materials:
products	Carbon Dioxide, Carbon Monoxide, Sulfur oxides, Low MW hydrocarbons
Special protective equipment	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full- face piece operated in a positive pressure mode.
Special protective actions for fire fighters	: No special protection is required.

### Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures.		
For non emergency personal	: Put on appropriate personal protective equipment.	
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unstuiatble materials.	
<b>Enviromental precautions</b>	: Not applicable	
Methods and materials for containment and cleaning up		

Spill

: Due to the physical state of this material, spills are not possible.

# Section 7. Handling and storage

Precautions for safe handling	
Protective measures	: Put on appropriate personal protective equipment (see Section 8)
Advice on general occupational	: Eating, drinking and smoking should be prohibited in areas where material is handled,
hygiene	stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry cool and well-ventilated area away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready to use. Do not store in unlabeled containers.

# Section 8. Exposure controls/personal protection

<u>Control parameters</u>	
Occupational exposure limits	: None
Appropriate engineering controls	: No special ventilation requirements. Good ventilation should be sufficient to control worker exposure to airborne contaminats.
Environmental exposure controls	: Emmissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.
Hygiene measure:	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking, and using the lavatory and at the end of the working period. Ensure that eyewash stations and safety showers are close to the work station location.
Eye/face protection	: Safety eyewear complying with an approved standard should be used when risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases and dusts.
Skin Protection	
Hand protection	: Chemical- resistant, imprevious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	: Personal protective equipment for the body should be selected based on the task being preformed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being preformed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	: Use a properly fitted, particulate filter respiratory complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

# Section 9. Physical and chemical properties

<b>Appearance</b>	
Physical state	: Solid (tape)
Color	: Silver
Odor	: No odor
Odor threshold	: Not available
рН	: Not applicable
Melting point	: Not available
Boiling point	: Not available
Flash Point	: Not determined
Burning time	: Not determined
Burning rate	: Not determined
-	

Polyguard Products, Inc.	3/7
--------------------------	-----

# 9. Physical and chemical properties

Evaporation rate:	: No applicable
Flammability (solid, gas)	: Not applicable
Lower & upper explosive	: Not applicable
( flammable) limits Vapor density	: Not applicable
Vapor pressure	: Not applicable
Relative density	: 1.09
Solubility	: Insoluble in water
Partition coefficient: n-	: Not available
octanol/water	
Auto- ignition temperature	: Not applicable
Decomposition temperature	: Not applicable
SADT	: Not applicable
Viscosity	: Not applicable
VOC	: 0 g/l

# Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: This product is stable.
Possibility of hazardous	: Under normal conditions of storage and use, hazardous decomposition products should not be
reactions	produced.
Conditions to avoid:	: No specific data.
Incompatible materials	: Reactive or incompatible with the following materials: Oxidizing materials
Hazardous decomposition	: Under normal conditions of storage and use, hazardous decomposition products should not be
products	produced.

# Section 11. Toxicological information

#### **Information on toxicological effects**

mormation on toxicological ener	
Acute toxicity	: There is no data available
Irritation/Corrosion	
Skin	: There is no data available
Eyes	: There is no data available
Respiratory	: There is no data available
Sensitization	
Skin	: There is no data available
Respiratory	: There is no data available
<b>Mutagencity</b>	: There is no data available
<u>Carcinogenicity</u>	: There is no data available
<b><u>Reproductive toxicity</u></b>	: There is no data available
Specific target organ toxicity	: There is no data available
( single exposure)	
Specific target organ toxicity	: There is no data available
<u>( repeated exposure)</u>	
Aspiration hazard	: There is no data available
Information on the likely routes	: Routes of entry anticipated: dermal
of exposure	: Routes of entry not anticipated: Oral, inhalation, ingestion
Potential acute health effects	
Eye contact	: No known significant effects or critical hazards
Inhalation	: No known significant effects or critical hazards
Skin contact	: No known significant effects or critical hazards
Ingestion	: No known significant effects or critical hazards

#### Section 11. Toxicological information

Symptoms related to the physical, chemical and toxicological characteristics				
Eye contact	: No known significant effects or critical hazards			
Inhalation	: No known significant effects or critical hazards			
Skin contact	: No known significant effects or critical hazards			
Ingestion	: No known significant effects or critical hazards			
Delayed and immediate effects and also chronic effects from short and long term exposure				
<u>Short term exposure</u> Potential immediate effects	. No known significant offects or critical begards			
	: No known significant effects or critical hazards			
Potential delayed effects	: No known significant effects or critical hazards			
Long term exposure				
Potential immediate effects	: No known significant effects or critical hazards			
Potential delayed effects	: No known significant effects or critical hazards			
Potential chronic health effects				
General	: No known significant effects or critical hazards			
Carcinogenicity	: No known significant effects or critical hazards			
Mutagenicity	: No known significant effects or critical hazards			
Teratogenicity	: No known significant effects or critical hazards			
<b>Developmental effects</b>	: No known significant effects or critical hazards			
Fertility effects	: No known significant effects or critical hazards			
Target organs	: No known significant effects or critical hazards			
Numerical measures of toxicity				

<u>Numerical measures of toxicity</u> <u>Acute toxicity estimates</u>

: There is no data available

#### Section 12. Ecological information

<u>Toxicity</u> <u>Persistence and degradability</u> <u>Bioaccumulative potential</u> Mobility in soil	: There is no data available : There is no data available : There is no data available
Soil/water partition coefficient (Koc)	: Not applicable
Other adverse effects	: No known significant effects or critical hazards

#### Section 13. Disposal Considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.

# Section 14. Transportation information

AERG: : Not applicable Regulatory Information: DOT/TDG/IMDG/IATA : Not regulated

Polyguard	Products.	Inc.

### 16. Other information

#### Hazardous Material Information System (USA)

#### Health -1 Flammabilty-0 Physical hazards-0

Caution: HMIS<sup>®</sup> rating are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS<sup>®</sup> ratings are not required on SDSs under 29 CFR1910.1200, the preparer may choose to provide them. HMIS<sup>®</sup> ratings are to be used with fully implemented HMIS<sup>®</sup> program. HMIS<sup>®</sup> is a registered trademark of the National Paint & Coating Association (NPCA). HMIS<sup>®</sup> materials may be purchased exclusively from J.J. Keller.

#### National Fire Protection Association (USA) NFPA 704

#### Health -1 Flammability-0 Instability-0

NFPA-704 was copyrighted by the National Fire Protection Association of Quincy, MA. This warning system is intended to be interpreted and applied only by properly trained individuals to identify fire, health and reactive hazards of chemicals. The user is referred to certain limited number of with recommended classifications in NFPA 49 and NFPA 325, which would be used as guidelines only. Whether the chemicals are classified by NFPA or not, anyone using the 704 systems to classify chemicals does so at their own risk.
