

STYLE 347S THERMO-SIL™ KNITTED ROPE

BENEFITS:

- THERMO-SIL™ Woven fiberglass has excellent insulating properties
- Soft, flexible knitted rope is easy to install
- Proprietary coating enhances density and sealability
- Fire, compression and explosion resistant
- Specifically approved for use in the mining industry: MSHA acceptance #112592GI, Application #11992

DURABILITY:

- Will not burn or smolder
- Will not shrink or stretch
- High dielectric strength – insulates and protects electrical sources
- Long life under harshest conditions

TEMPERATURE: To 1000°F (+538°C) continuous

PH RANGE: 4 - 9

CONSTRUCTION: Woven Fiberglass

AVAILABLE SIZES: 3/16", 1/4", 3/8", & 1/2" diameter
